

Citadel Series LED

for High Dust & Debris Environments

Dirty environment approved

Free from harmful dust and dirt buildups that prevent fixtures from staying cool

Easy installation

Plug and play waterproof cord connectors

Fast lead times

USA ingenuity

Dual purpose cooling and hanging fin

Scalable design

100 – 900 Watts

Better designed projects

Optics 60° – 90° – 120° – Aisles

**REVOLUTIONARY,
PATENT-PENDING DESIGN**
sets new performance standards for
extreme industrial environments.

Want the very best and brightest in military-grade LED lighting? Turn to the Citadel. This series looks like no other LED because it's designed like no other LED. As a result, it stands up to the most demanding high-heat, high-dust & debris environments like no other LED.

American-Made Tough & Reliable

We understand that failure is not an option. Our fixtures are uniquely designed and built Military-Grade tough, so they stand up to almost anything without complaint.

Keep Your cool with Remote Drivers

Tactik features remote drivers to prevent unwanted heat build-up. Helps extend fixture life and offers added flexibility to adjust to plant floor plans – without costly re-gridding.

2 Week Lead Time

Our innovative modular design and advanced manufacturing capabilities allow us to ship all orders, even customizations, in 2 weeks.

TACTIK
LIGHTING

Citadel Series LED

One Brilliant Idea After Another

PREVENT PREMATURE FIXTURE FAILURE

As dust & debris accumulate, they act as insulators. This causes internal temperatures to soar and frequently leads to premature fixture failure. The Citadel Series' innovative design addresses this issue three different ways.

1. Patent-Pending Vertical exterior heat transfer cooling fin dissipates heat while preventing dust and debris build-up

2. Steeply sloped sidewalls resist build-up of dust and debris

3. Patent-pending Internal heat transfer cooling fins prevent buildup of dust and debris that can hinder cooling

REMOTE DRIVER SYSTEMS

Tactik Lighting uses drivers that are capable of being in ambient temperatures up to 167°F. With the light engine itself being capable of being in ambient temperatures of 245°F.

If an environment is above 167°F, the driver must be relocated to an area where the temperature falls below that threshold. This can range anywhere from 10' to 1000' with no voltage drop-off.

The driver box can be hung at ground level, ceiling level, mounted to strut or to a wall. The universal plug and play allow for complete accessibility.

LED BOARD CONFIGURATIONS

The patent-pending shark tooth design allows LED boards to fit 11 models, ranging from 100 to 900 watts, ensuring uniform light distribution without dead spots. Each 8" board can handle up to 75 watts, and higher wattage fixtures result in longer fixtures.

Citadel Series LED

One Brilliant Idea After Another

Optics Information

NO OPTICS

- > Great for general illumination. No Optics are also great if you want to maximize horizontal light & to achieve uniform lighting overall. Ideal for 30 feet and below.

60 DEGREE OPTICS

- > Great for higher ceilings. Best used for fixtures mounted 30+ feet up. (This image captures a 25 foot mounting height).

AISLE OPTICS

- > Great for racking. With Aisle Optics, light is not wasted in adjoining aisles. This means you can reduce the number of fixtures in your facility, or can substantially reduce wattage when switching from HID or Fluorescents to LED.

NOTES	

FEATURES

- > Driver temperature up to 167°F (75°C)
- > UL Listed Drivers with less than 1% failure rate
- > Patent-pending remote driver minimizes fixture operating temperature without re-gridding required
- > Patent-pending design extends fixture life by helping prevent build-up of insulating dust and debris and eliminating illumination dead spots
- > Includes 10 Year Module Warranty - Full light engine or plug & play driver module replacement, rather than parts
- > Fail off 15KA transient voltage surge suppressor (TVSS) protects fixture against failure due to power supply surges
- > Optional motion sensor. Choose from standard by Wattstopper with L7 lens (fig 1.1 & fig 1.2*), or Internet of Things (IOT) by Enlighted Sensors (fig 1.3).
- > Dimmable 0-10V
- > UL 1598 listed
- > IP65 rated

SPECIFICATIONS

Power Factor.....>0.9
 Available Wattages..... 100, 150, 200, 250, 300, 400, 500, 600, 700, 800, 900
 Kelvin Temperatures4000K, 5000K
 Input Voltage 120/277V & 347/480V
 Performance..... Up to 160 lm/W
 Distribution..... 120°, 60° & Aisle
 Mount Type..... Suspension
 Color Rendering Index (4000K)>70
 Color Rendering Index (5000K)>90

DAISY CHAIN & CONTROL PANEL OPTIONS

Our custom daisy chain configurations and custom control panel options allow you to power multiple fixtures with one driver, saving you money and space. And we can custom-mount your drivers at a height that best suits your environment.

Reach out to a manufacturing representative today for a custom quote for your facility.

American Made & Measurably Better

What's better than higher heat ratings in your LED lights? Higher heat ratings in the 1st AMERICAN MADE LED lights!

You heard right. Industrial/commercial LED lights proudly made in America. So, you see a 46% increase in high temperature ratings. You know what you won't see? The cost of foreign trade tariffs jacking up the price of the products you want.

Tactik Labs is your added assurance of reliability.

Our LED lighting is designed to a higher standard. So is our validation process. At our in-house lab testing facility, our products undergo rigorous testing to provide you every assurance possible that all Tactik LED lighting will perform and last as promised. While others may talk about performance and reliability in harsh environments, Tactik Labs documents it.

Backed with confidence.

We protect distributors and customers with a 10-year warranty standard for added peace of mind. Plus, service after the sale includes a proactive warranty process – replacement is shipped immediately if a problem is identified and defective product is returned in its original box.
