

TURRET PRODUCT ANNOUNCEMENT

A number of customers have requested a pole mounting mechanism for the Turret Series fixture. As a result, we are adding a male and female 3/4 inch hub accessory to the product line.

APPLICATIONS

- > Provides a simple, inexpensive disconnect method for pendant mount hanging of Turret Series fixtures.
- > Permits free swing in any direction to prevent damage to fixture stem; cushion style provides additional protection from vibration helping to prolong life cycle of the product.

FEATURES

male

- > Female hooks and loops are used with rigid conduit to suspend fixtures. They may also be used with male hooks and loops, threaded into a conduit outlet hub.

female

- > All hooks and loops are provided with openings for passage of wires; fixture conduit stem and hook or loop can be assembled and wired. After assembled, the fixture can be hung on the fixed hook.

- > For ease of lamp replacement and maintenance, the outlet fitting can be equipped with an attachment plug receptable cover; for permanent wiring, a wire hold cover may be used.

PRODUCT INFORMATION

- > Diameter of wire opening: 1/2"
- > Standard Material: Malleable iron
- > Standard Finish: Cadmium electrogalvanized and aluminum acrylic paint
- > Size Range: Fixture stem/hub - 1/2" or 3/4"
- > Fixture Weight: up to 125lbs

To inquire about pricing, lead time, or to order this mounting accessory, please contact our Tactik Lighting representatives via email at sales@tactik.com, or via phone at 920.287.3840
